

1.5M OUTDOOR LIGHT-UP CHRISTMAS TREE SILHOUETTE

Instruction Manual

PLU-159050

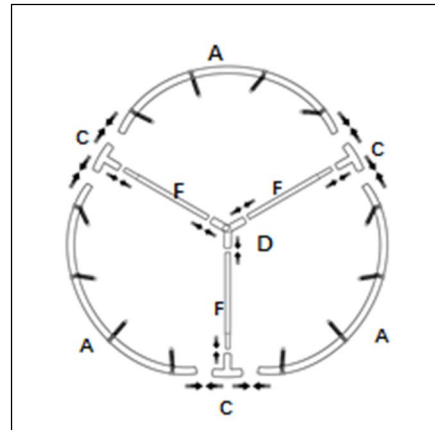

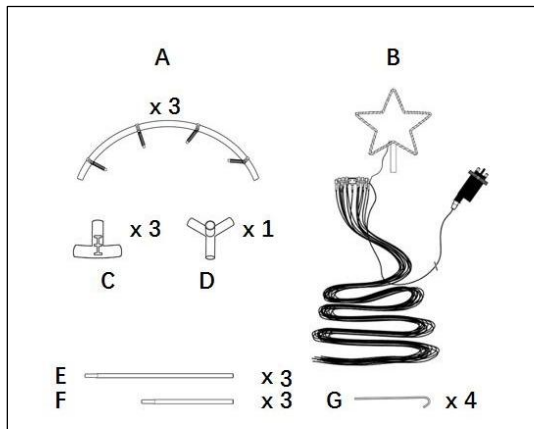

INFORMATION

Please read the following carefully to ensure the safe and satisfactory operation of this product. Please retain this instruction manual for future reference.

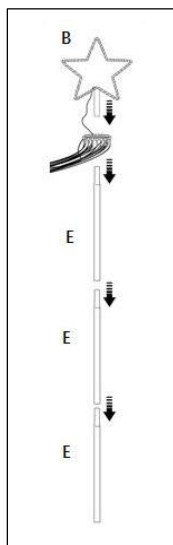

ASSEMBLY INSTRUCTION:

- Connect the 3 short poles (F) to the 3 "T joint" (C) respectively. Connect the other end of the 3 short poles together by using "3D joint" (D). Insert three curved pieces (A) to the "T joint" to form the circle base. See image ①.
- Connect the three long poles (E) together. Insert the star component (B) on top. See image ②.
- Combine the two assembled parts from image ① & ② by inserting the long pole (E) into the "3D joint" (D). See image ③.
- Connect the plastic hook at the end of light string (B) to the metal coils on the curved pieces (A). See image ④.
- Fix the product on the ground by using four ground pegs (G) included for outdoor use. See image ⑤.
