 - Also, it can select Thumbnail mode and volume (from 0 to 6) under Preview Mode.

Back

SETTING THE FUNCTIONS:

Turn on the Car Camera and press Menu Button (12) under Video Mode or Camera Mode to enter into setting inference. Confirm selection by pressing REC/SNAP Button (10) and select Up (14) / Down (13) for the following setting. Press Menu Button (12) again to exit once finished.

A. Video Output

Under video mode, press Menu Button (12) to enter "Video Output" setting.

1. **Resolution:** Select (HD 1080P / 720P / VGA)

2. **Time Stamp:** Select (Off / On)

3. **Motion Detect:** Select (Off / On)

Note: When selecting motion detect function, it will be recording automatically, if there is movement and stop recording if there is no movement.

4. **Video Time:** Select (Off / 1 min / 3 min / 5 min / 10 min) to determine the length of each video section.

5. **Voice Record:** Select (On / Off)

B. Setting

Whether under Video Mode or capture mode, press Menu Button (12) twice to enter into Setup Interface.

1. **Format:** Select (Cancel or Execute) to format the memory card

2. **Language:** Select (English / Traditional Chinese / Simplified Chinese / Japanese)

3. **Screen Saver:** Select (Off / 1 min / 3 min / 5 min)

4. **Auto Off:** Select (Off / 1 min / 3 min / 5 min)

5. **System Reset:** Select (Cancel or Execute) for system reset

6. **Light Frequency:** Select (50HZ / 60HZ)

7. **Date Input:** Set correct recording Date and Time by REC/SNAP button (10) and Up (14) / Down (13)

8. **USB Mode:** Select (PC Cam / Disk Drive)

Remark: IR LED function: Turn on the Car Camera and press Mode Button (15) under Video mode, you can select Day or Night to press the On / Off Button (9).

C. Capture

Under camera mode, press Menu Button (12) to enter "Capture" Size setting. Select (3M / 2M / 1.3M / VGA)

NOTE:

1. Please insert the SD/MMC card before recording.

2. This Car Camera records in a cycle. If you choose 1/3/5/10 minutes as a storage time, when the storage medium is full, it will record from the beginning again and erase over the previously recorded material automatically. It will have 3 seconds pause time, and the contents in the 3 seconds will not record.

3. Because of the Car Camera is DV5V input, please use the attached car charger. It has adaptor 12V/24V transfers to 5V already.

TECHNICAL SPECIFICATIONS:

1. Recording resolution: HD 1080P / 720P / VGA

2. Video format: AVI

3. Repeat storage by section: 1/3/5/10 minutes

4. Power source: Li-ion Rechargeable Battery or 12/24V Car Charger
