

SET-UP

- Check the ground where the product will be set up for any sharp objects or debris. Do not install the product over concrete or any hard surface.
 - Place the product on a soft level surface at least 2 meters from any structure or obstruction such as a fence, garage, and house, overhanging branches, laundry lines or electrical wires.
 - Ensure the play area is free from hazards such as furniture, walls, sharp objects, other hard surfaces, etc.
 - Set up the product away from water and any potential fire hazards.
 - Keep the blower (air pump) and power cord away from areas of water and moisture. If water contacts the blower (air pump), unplug the blower (air pump) power cord. Do not operate until the blower is completely dry.
 - Remove the product from the carry bag. Be sure to place the product as close to the power source as possible.
 - Stretch the inflation tube and attach it to the end of the blower (air pump). Ensure the inflation tube is securely attached and in good condition. The inflation tube should be straight and untwisted. Reposition the blower (air pump) if necessary.
 - Push ground stakes through blower base holes. You may need to use a hammer for proper placement.
 - Make sure the blower (air pump) power switch is in the OFF position. Ensure the power connections are safely sited and tripping hazard is minimized.
 - Place the inflation tube onto the blower (air pump) and place the long end of the strap through the loops. Wrap the strap around the inflation tube and feed it through the black loop. (Refer to picture A)
 - Pull the strap tightly and secure the reverse side to the black loop and affix it to the hook & loop fastener. Adjusting the direction of the inflation tube to prevent bends or distortion that may impede the flow of air. (Refer to picture B)
 - The blower (air pump) should be securely sited and affixed to the ground before use. Plug the blower (air pump) into an approved ground outlet.
 - Ensure the blower (air pump) is free from debris and securely sited to avoid tripping.
 - Turn the blower (air pump) power switch to ON. The continual air-flow blower (air pump) must be left ON at all time while the product is being used. (Refer to picture C)
 - The product should be fully inflated.
 - Ground support stakes are used for lawn ground surfaces. Hook and fit each provided ground stake through each loop in the bouncer. To prevent overturn or lift during playing, push stakes firmly into the soil. Make sure the hooked end of the stake is over the loop at all time during use. The stakes should be placed level with or under the ground in order to reduce tripping hazards. (Refer to picture D)
 - Please check the age recommendation and user weights (printed on the product). You must not exceed the total weight for the product.
- Hint: Air leak from the seams is necessary because the product is inflated by constant air flow and this leakage is required to stop the product becoming over-inflated.
- Hint: It is drawn user's attention to the orientation of the inflatable equipment installation in relation to the sun. The sliding surface of the product shall not face to the sun as sun shine can glare the children's eyes when they are sliding down along the slide.

TAKE DOWN

- Make sure all children exit the product.
- Make sure the product is free from foreign objects.
- Turn the blower (air pump) power switch to OFF.
- Unplug the blower (air pump) power cord.
- Loosen the hook & loop fastener and detach the inflation tube from the blower.
- The product should deflate on its own within 5 minutes. Make sure the product is entirely deflated. (Refer to picture E)
- Remove ground support stakes.
- Fold the product in half from both ends, and then fold it in half 2 more times from both sides, vertically to the first fold. (Refer to picture F, G, H)
- Roll it up tightly from the end opposite the inflation tube. (Refer to picture I, J)
- Slip the carry bag over the folded product and stakes. Zip the bag. (Refer to picture K)

MAINTENANCE

- Checks and maintenance of the main parts of the toys should be carried out of regular intervals, if these checks are not carried out the toys could overturn or otherwise become a hazard. Whenever practical, the instructions shall also be affixed to the toy.
- The seasonal inspection and maintenance should be conducted for any damage or leakage of the product.
- The product can be wiped clean with a mild detergent. Keep water away from the blower (air pump) at all times.
- Do not store the product when wet. Store the product and the blower indoors in dry conditions when not in use.

REPAIR

In case of any breakage of product, please patch up through hand sewing. Each type of product is provided with a repair kit which includes six pieces of cloth (in three colors; each color has two pieces) and three 20-meter long threads of different colors. Sewing needles are not provided and you should purchase by yourself (3# sewing needle is suggested).

- Turn off air blower and deflate the product.
- Thread a needle with a spare thread and tie a knot at its end.
- Close up the broken cloth and sew along the gap. Tie a knot after sewing to avoid loose thread.
- * In case of cloth breakage (as shown in picture L), please cover the breakage with a piece of patching cloth of proper size. Then sew up the patching cloth along its sides. While repairing, you should take notice that the sewing should only occur on the surface layer of the original cloth rather than reaching its underlayer.
- * In case of breakage in the seam position (as shown in picture M), the sewing should only occur between the two split cloth rather than reaching the underlayer or any other cloth.
- * In case of large-size breakage or internal structural damage, please change product or have professionals do the repairing. Air leakage is normal in the repaired position and air pressure of the repaired product maybe lower than the original. But it will not affect the normal use of the product.
- Patching in one position for more than twice is not suggested.
- Needles should be taken good care of and not be left on the product after sewing.
- It is suggested that persons with sewing technique should do the repairing work.
- In case of any confusion about the aforementioned instruction, please refer to our website www.happyhopkids.com

WARNING

- Failure to follow the specified instructions could result in serious injury.
- Keep the product a safe distance (at least 2 m) from fire, walls and other obstructions.
- The product may not be used outside in rainy and / or lightning conditions or if winds exceed 40km/h (25 MPH). Sudden gusts of wind may lift the product off the ground.
- The product must be fully inflated before any children are allowed inside. The product must stay fully inflated until everyone is out.
- If the product begins to deflate, remove all children and check for disconnection of power cord or for power outage.
- Do not drag on concrete or other rough surfaces.
- Unauthorized modification of the product is not allowed.
- Product should be checked regularly for potentially unsafe conditions such as damaged cord, plug, housing, or parts. If such damage is found, the product should not be used until properly repaired.
- To reduce the risk of fire or electric shock, do not use the blower with any solid-state speed control device.
- Check stakes regularly during playing to ensure they remain secure in the ground.
- The carry bag is not a TOY, but for storage use only.
- Adult set-up and dismantling are required. Adult supervision is required at all times while the product is in use. Instruct children on proper use of this product. Do not use in a manner other than intended.
- Ages and sizes of children playing in the product at the same time should be comparable. Not suitable for children under 3 years. Small parts may be swallowed. Never leave children unattended during playing.
- Keep children and pets away from the blower (air pump).
- Individuals with head, neck, back or other muscular-skeletal injuries or disabilities, small in-fants, pregnant women and others who may be susceptible to injury from falls, bumps or bouncing are not permitted in the product.
- Shoes, eyeglasses, jewelry and any hard or sharp objects that may cause injury must be removed before entering the product. Loose or baggy clothing or clothing containing long cords should not be worn while playing on this product.
- To prevent choking, children may not enter the product while eating, drinking, or chewing anything in their mouth.
- Never slide down head first to avoid the risk of serious injury or death. Keep arms away from the two sides of the slide when sliding down to avoid a risk of skin injuries.

Do not touch the two sides of the slide

Never slide down head first

- Children are required to slide down with proper posture (refer to the following pictures) when playing on the product with slide.

1 Sit on the platform
Do not stand up

2 Cross your hands
over chest before
sliding down

or

Slide with arms
UP on this slide

3 Sliding finish

- No flipping, wrestling, running, or pushing is allowed inside the product.
- Do not bounce on the edges, steps. Climbing or hanging on the walls, netting or exterior of the product is not allowed.
- Changes to the original toy shall be carried out according to the instructions of the retailer of the original toy.
- In case of injury, contact a physician immediately.

Colors, measurements and details may vary from packaging. The product measurements shown on the packaging may vary up to $\pm 10\text{cm}$ due to the products' being hand made. Ft and inch measurements are calculated from the metric sizes and are only an approximate calculation.
