Lay-Z-Spa
COLLECTION

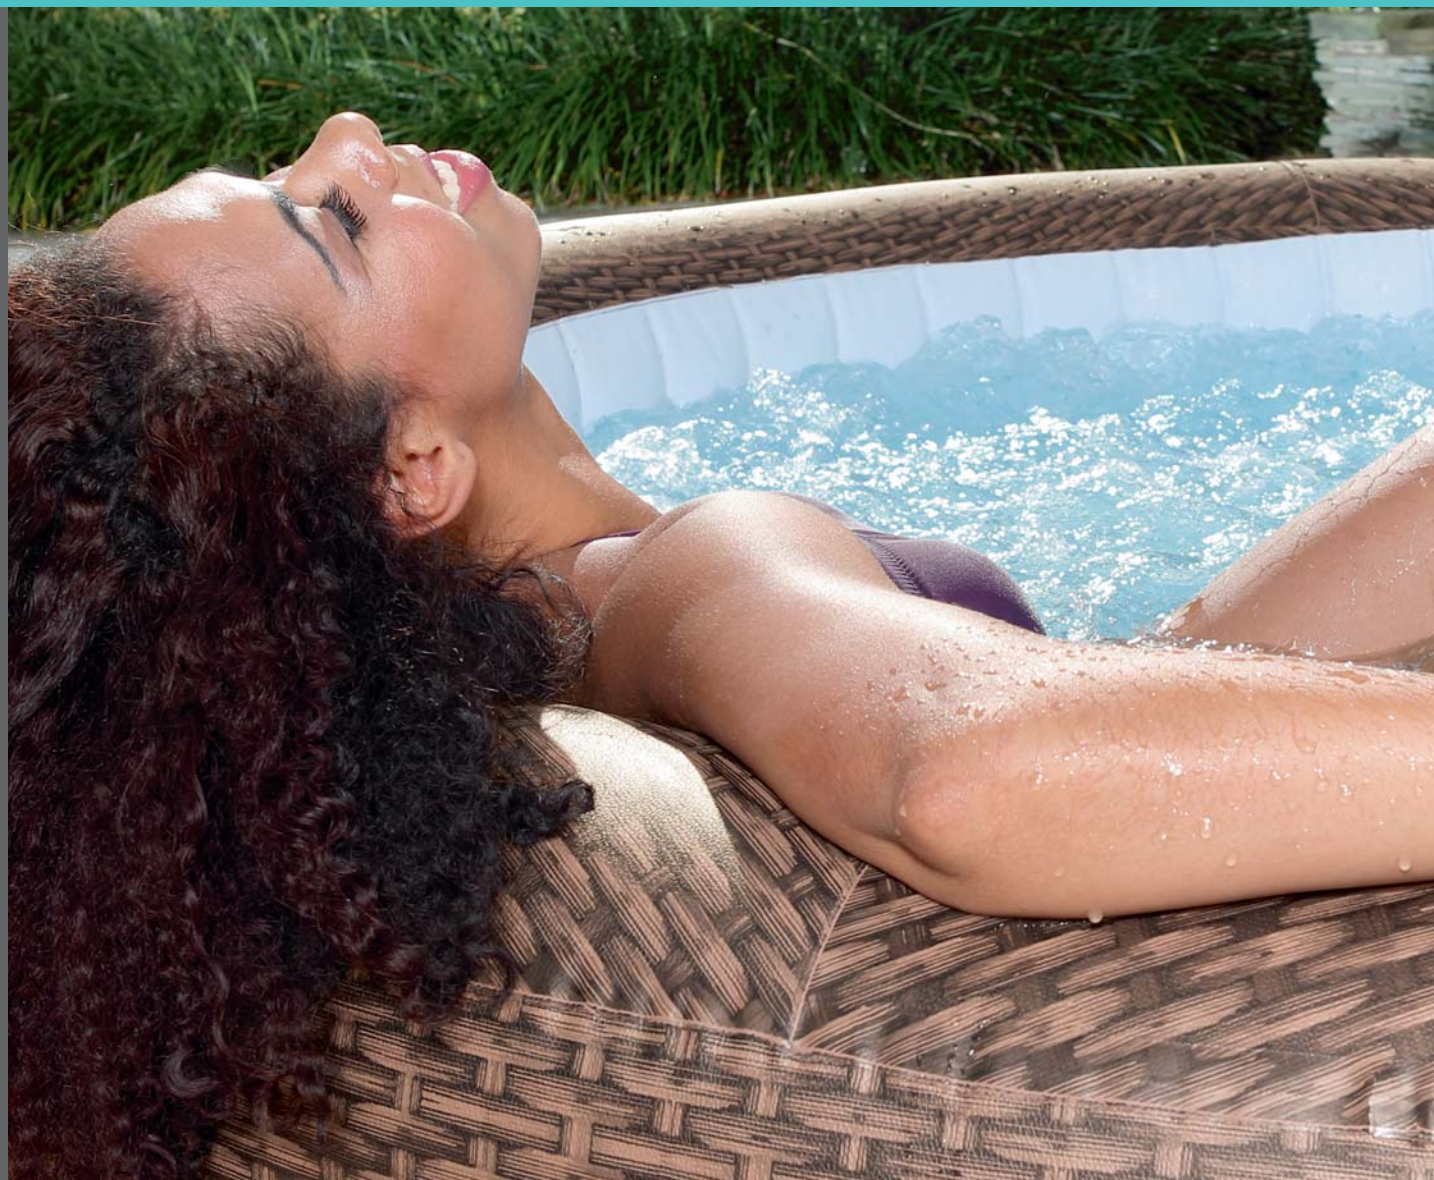

WELCOME

Bestway's Lay-Z-Spa® is the world's first premium inflatable spa. Almost a decade of advanced engineering innovations have built total market dominance and a name consumers have grown to trust. The Lay-Z-Spa® offers an affordable spa experience that's convenient to use, easy to set up and offers total relaxation.

Another reason consumers love Lay-Z-Spa® is because it's backed by Bestway's comprehensive customer support services. These include online support, video tutorials detailing step-by-step how to set up and maintain your spa, plus localised call centers to answer any questions. For this reason, customers enjoy peace of mind and can spend more time relaxing in their Lay-Z-Spa®.

Your customers deserve the best portable spa – they deserve Lay-Z-Spa® by Bestway.

WELCOME

Bestway's Lay-Z-Spa® is the world's first premium inflatable spa.

Almost a decade of advanced engineering innovations have built total market dominance and a name consumers have grown to trust. The Lay-Z-Spa offers an affordable spa experience that's convenient to use, easy to set up and offers total relaxation. Another reason consumers love Lay-Z-Spa is because it's backed by Bestway's comprehensive customer support services. These include online support, video tutorials detailing step-by-step set up and maintenance for your spa, plus localised call centers to answer any questions. For this reason, customers can enjoy peace of mind and spend more time relaxing in their Lay-Z-Spa. Your customers deserve the best portable spa – they deserve Lay-Z-Spa by Bestway.

TECHNICAL IMPROVEMENTS

As the world's first premium inflatable hot tub, Lay-Z-Spa is renowned for its unrivalled quality and trusted by over 250,000 happy customers across the UK. At the forefront of hot tub innovation, Lay-Z-Spa works hard to provide the latest safety measures and features that deliver a hot tub experience like no other.

GROUND FAULT DETECTION SYSTEM

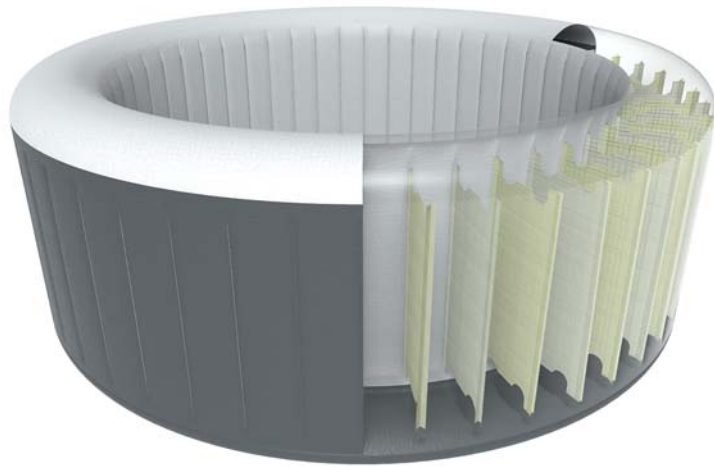

Unique to Lay-Z-Spa, the new Ground Fault Detection System (GDS) continually monitors for a secure earth connection in your power supply. Offering market leading IEC Class 1 appliance protection so you can enter your hot tub with total peace of mind.

IMPROVED PORTABLE RESIDUAL-CURRENT DEVICE

In addition to the new Ground Fault Detection System, the Portable Residual-Current Device (PRCD) has been upgraded with a new fail-safe magnetic system. Coupled with the new GDS, the ultra-sensitive PRCD electrical safety device delivers double-layered protection for an ultra-safe hot tub experience.

INTEGRATED CHEMCONNECT™ DISPENSER

Keeping your Lay-Z-Spa's water pristine is easy with the integrated ChemConnect™ dispenser. Fully adjustable to determine chemical release, simply add multifunction chlorine tablets for easy, no fuss hot tub chemical care.

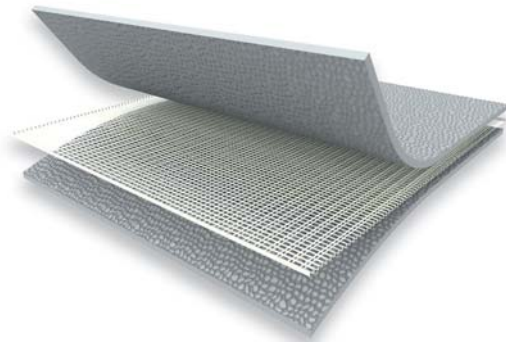

Y-BEAM CONSTRUCTION

Delivering strength and comfort

Lay-Z-Spa's Y-Beam construction is designed to offer superior structural stability while maintaining a comfortable surface for a luxurious, refreshing spa experience.

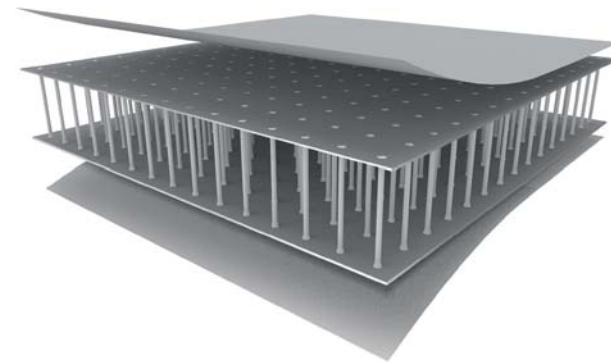

The spa retains its shape no matter how many times it's inflated and deflated, always providing a comfortable, cushioned spa environment.

TRITECH™ 3-PLY

Durable, yet comfortable

Tri tech™ is a 3-ply reinforced material with a polyester mesh core that's encased in two layers of laminated PVC – offering superior strength and durability to the build of our Spas.

DROP STITCH MATERIAL

Strength and Durability

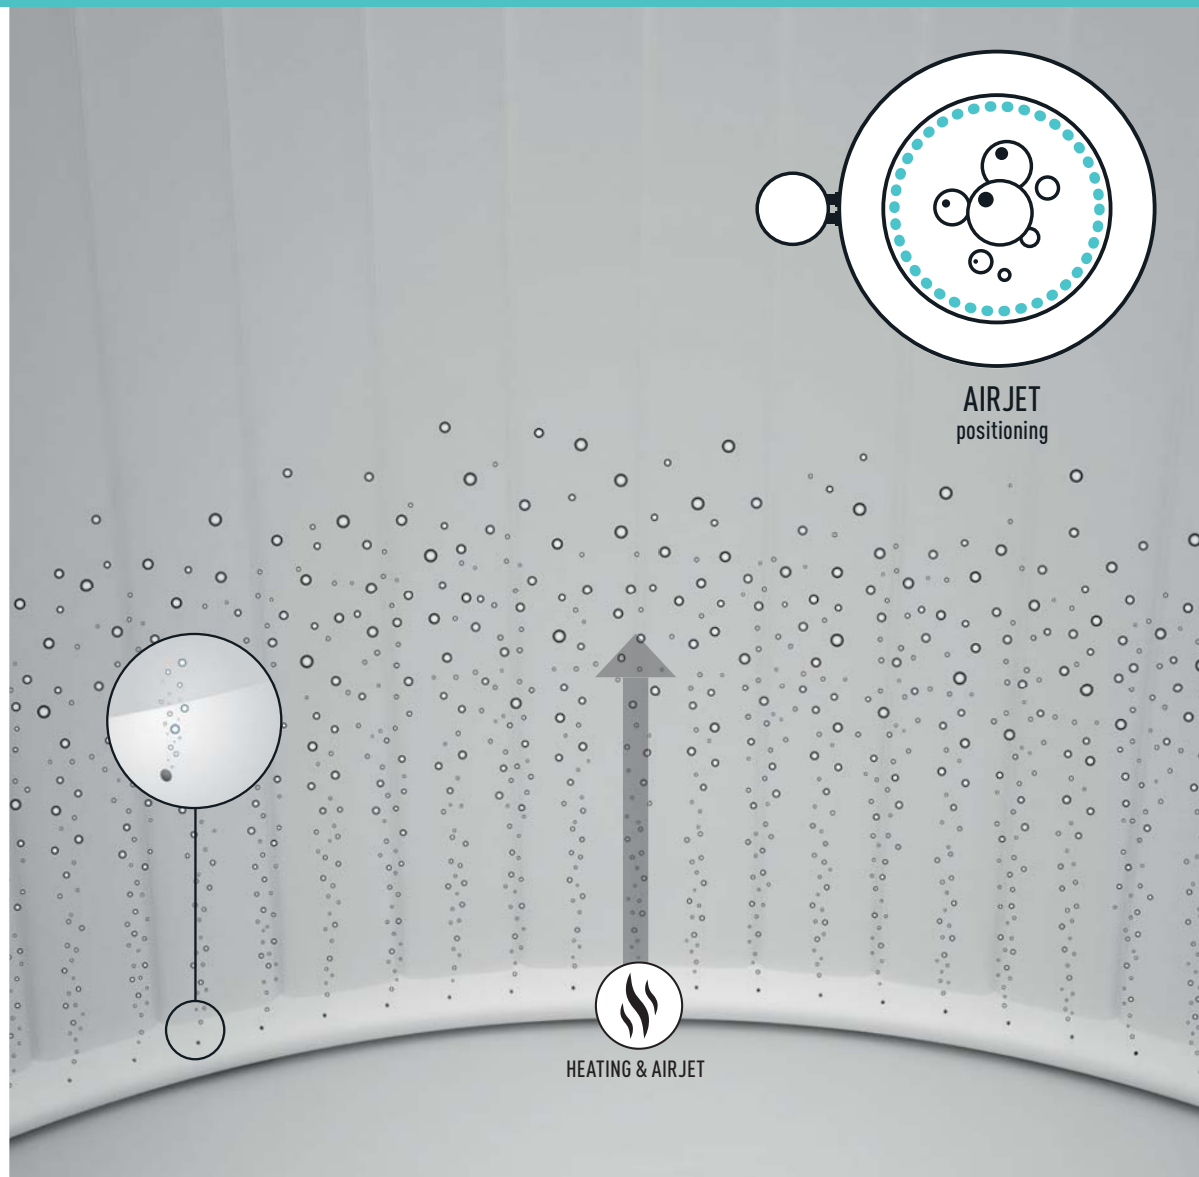

Inflated walls made from drop stitch material, provide unparalleled strength and durability.

These threads securely connect the material surfaces internally, while carefully applied sidewalls seal the finished inflated cavity. This creates a panel that effectively supports considerable weight while itself being light and easily portable when deflated.

Lay-Z-Spa® AirJet™

Float away on a cloud of bubbles
with an AirJet™ massage!

Soothing to the limbs and relaxing
to the spirit, just press the
Massage button on the control panel and
the Lay-Z-Spa's® AirJet™s will
surround you with effervescent
enjoyment.

FREEZE SHIELD™ TECHNOLOGY

Lay-Z-Spas with Freeze Shield™ are equipped for year-round, all-weather use. Designed with innovative winterising technology, these spas have built-in sensors so water temperature never falls below 6°C. Freeze Shield™ automatically increases water circulation when temperatures are low to prevent inner parts from becoming damaged.

Lay-Z-Spa® HydroJet™

All eight HydroJets are fully adjustable: Simply twist the HydroJet's bezel to adjust the water flow rate, then pivot the nozzle to re-direct the jet to wherever you like.

You can use them to share the luxury evenly around your spa companions or, if you're alone, re-direct the HydroJets toward yourself for a deep, relaxing solo massage.

8 HYDROJETS

FLOW CONTROL AND DIRECTION

Pivot the nozzle to direct the jet wherever you wish. Twist the bezel to adjust the flow rate

HYDROJET
positioning

HYDROJET™

Perfect spa relaxation at your fingertips!

ClearSoft™

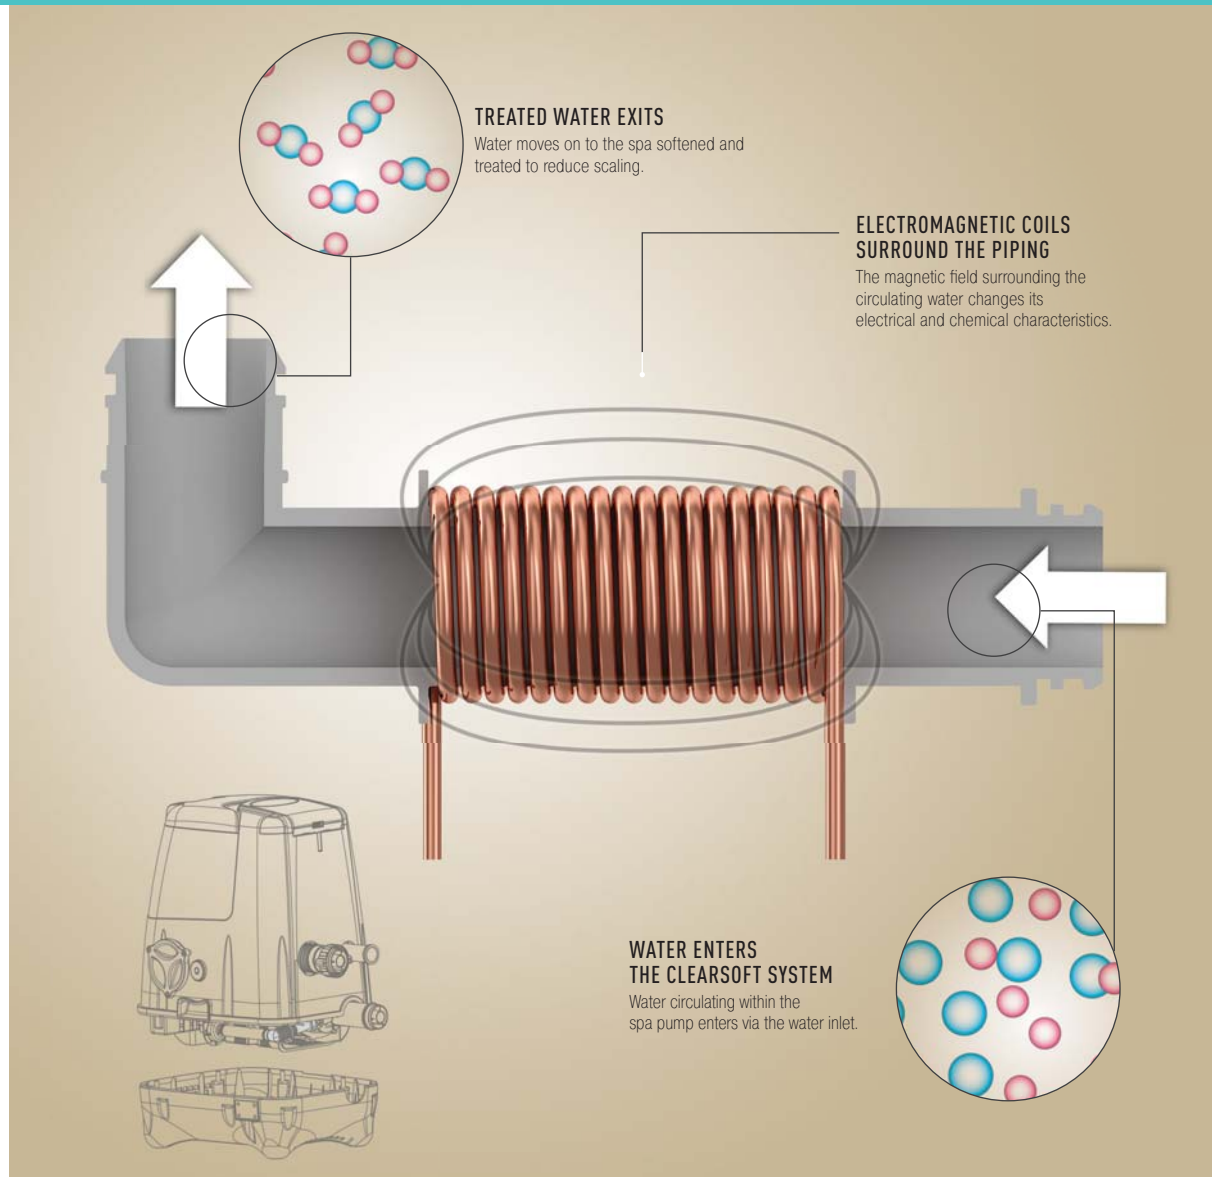

Water Softening System

Electromagnetic Water Softening

Reduce the adverse effects of “hard” water (commonly causing spa staining and skin irritation) with our in-built ClearSoft™ Water Softening System.

Just activate the ClearSoft system™ using the spa’s control panel and powerful electromagnetic coils surrounding the spa’s water work to condition the water passing through the system.

Plus, it’s not just “low-maintenance”, it’s virtually “NO-maintenance” - with no additional moving parts!

Electromagnetic Softening System

Reduce the adverse effects of "hard" water (usually spa staining and skin irritation) with our built-in ClearSoft™ Softening System. Activate the ClearSoft system using the spa's control panel. The powerful electromagnetic coils surrounding the spa's water work to condition the water passing through the system. Plus, it's not just "low-maintenance", it's virtually "No maintenance" - with no additional moving parts!

SETUP AND MAINTENANCE

We make it quick and easy to start relaxing and maintaining your spa!

With the necessary set-up tools already included, all you need is the space to place your spa and it's a simple process of 1, 2, and 3 to get going.

1. Inflate the Lay-Z-Spa with the double-functioning spa pump.
2. Connect the pump to the Lay-Z-Spa with the correct openings and make sure they are all attached correctly.
3. Fill up the Lay-Z-Spa with water to the indicated level and you are now ready to enjoy your spa!

In addition to all the tools and the pool cover that comes with every spa, we've also included a chemical floater and filter cartridge. These are used to keep the water healthy and clean, which is important not only for yourself but for the longevity of the spa!

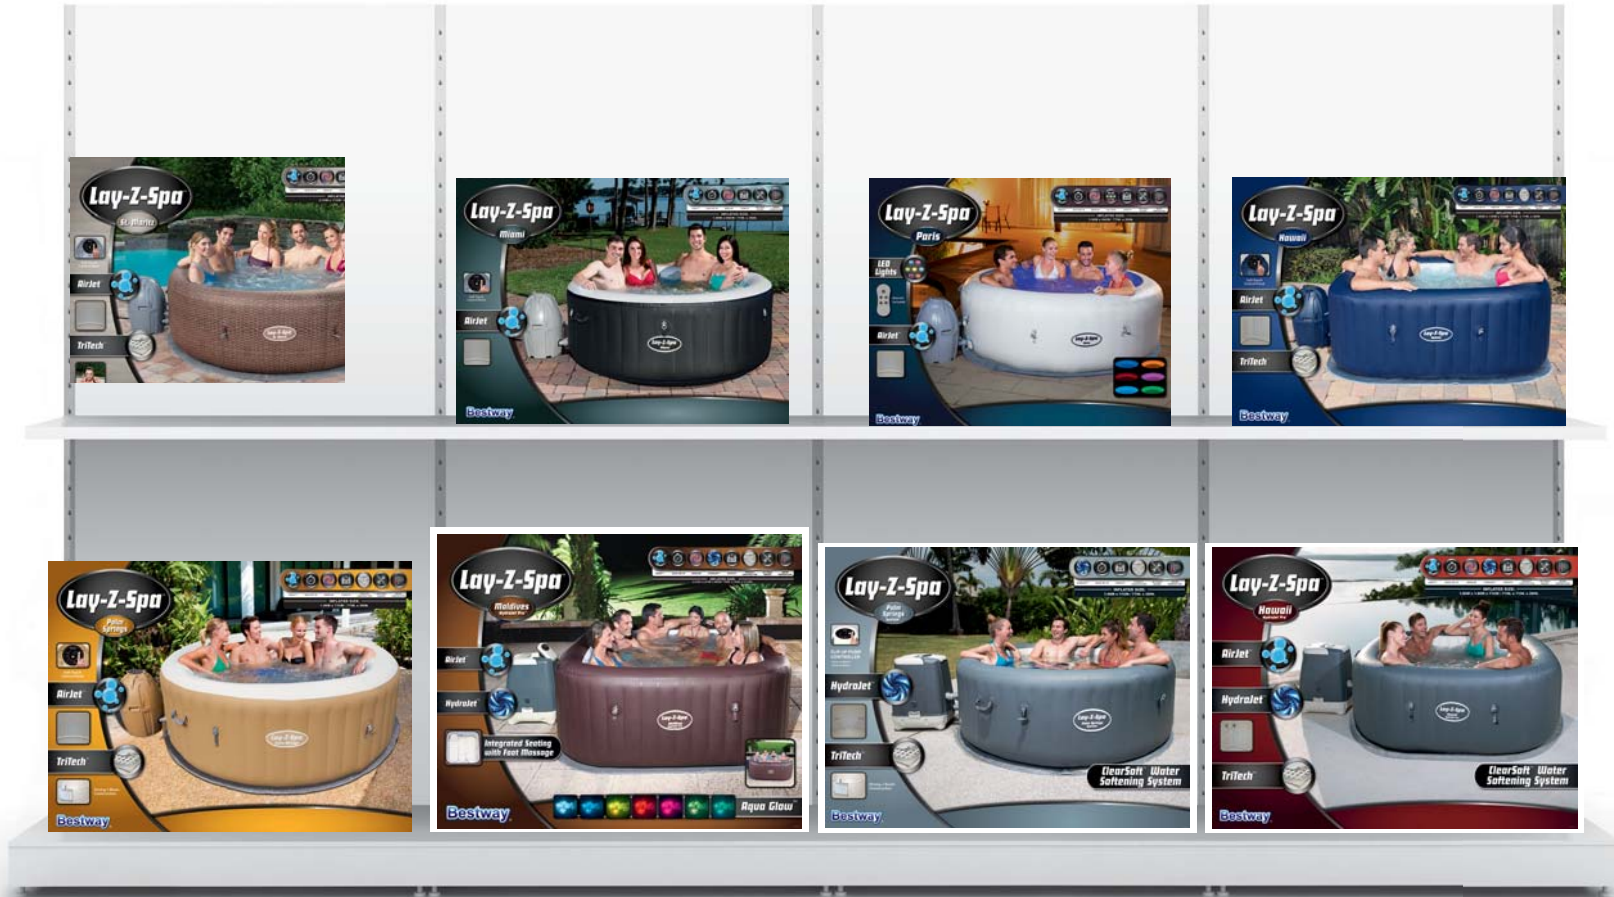

The new deflation function, thanks to simple fittings shown in the left picture, can deflate the spa in an easy and convenient way. Function available on all the Lay-Z-Spas.
