

**Karaoke Microphone**  
Style no 3224110

**1. Diagram**

**2. Cables included**

**3. Charging**

Charge the device using the USB charging cable provided and a certified USB wall adaptor (not included) or other USB output, e.g. laptop.  
The red light will illuminate whilst charging.  
Charging takes 3-4 hours from fully discharged.  
Please ensure item is charged before use.

**4. How to Use**

- Ensure the device is fully charged.
- To turn on press the On/Off button for three seconds.
- Pair to a mobile / tablet using the Bluetooth on the mobile / tablet. Select Q9 on the mobile / tablet list of devices found. A notification sound on the mic will indicate successful pairing.
- If pairing fails repeat c. If several attempts fail try with a different device and/or check that the microphone is sufficiently charged.
- Download the desired Karaoke App from App Store / Android / Google Play onto the paired device.
- Select the desired song and start the music.
- To receive a phone call on your mobile whilst paired with the Microphone press the Play / Pause button.
- To use as a speaker set Voice Volume to minimum.
- To switch off press On/Off button for three seconds.

**Recording**

Connect the Microphone to your mobile / tablet using the recording cable.  
Follow your App instructions on your mobile / tablet.

**U Disk**

The device supports UDisk and will automatically connect to most MP3 devices once plugged into the UDisk port.

**Note:** The Microphone will automatically detect Android or iOS devices but this can also be set manually from your phone / tablet.

**5. Troubleshooting**

Issue	Reason	Solution
Power light not illuminated	Low battery or bad connection with charging cable	Charge correctly, check the connection and charging cable.
No voice from microphone	Not switched on or voice volume too low	Turn on the device and adjust the voice volume.
No record effect	Echo not selected	Adjust the echo to the desired setting.
Poor recording quality	Mobile phone not compatible or poor performance of the audio app	Change to another mobile phone.
Notes when singing or recording	Environment too noisy or poor mobile phone signal	Move to quiet place and move closer to the mobile phone.
Bluetooth connection interrupted or failed	Obstacles between mobile phone and microphone, or too far from phone for Bluetooth to operate	Remove the obstacles, move closer to the phone.
Low accompaniment volume	Phone volume is too low or the microphone is too quiet	Adjust the phone volume, download music with clear sound, adjust the accompaniment setting on the mic.
Storage space not freed following Bluetooth connection	Voice volume setting is too high or battery power is too low	Reduce volume, or charge the device.

**6. Specifications**

Microphone Model	Q9
Pickup	Electret Condenser
Output Voltage	3W*2(Dual Speaker)
Frequency Response Range	20Hz-20KHz
Maximum Sound Pressure Range	<math>115dB</math> (RMS, THD <math><1\%</math>)
Resistance	2*4Ω
Mix Model	Echo Sound Reinforcement
Connection	Wireless Bluetooth
Battery	4.2V Polymer Lithium Battery
<b>Battery Capacity</b>	2600mah
Battery Life	11-14h
Charging	DC5V/0.5A
Charging Time	3-4h
Material	Aluminum
Type	Handset
Usage	Mobile Karaoke, Speaker
Colour	Rose-gold
Size	Microphone: 49(Diameter)*25(Length)mm Audio Box: 63*36*55mm
Weight	400g
