## 2.2L Dehumidifier & Air Purifier

### INSTRUCTION MANUAL

Model No.: 169782

#### **KEEP THESE INSTRUCTIONS FOR FUTURE REFERENCE**

##### **SAFETY INSTRUCTIONS**

- Ensure the voltage on the rating plate matches your 220–240V power supply.
- Place the unit on a stable, flat surface and keep it out of direct sunlight.
- Maintain at least 4" clearance around the sides and back of the dehumidifier.
- Do not install the appliance in damp or wet areas to avoid external condensation

and electrical damage.

- Disconnect by pulling the plug—not the cord.
- Keep fingers and objects away from the rear air inlet.
- Do not operate the unit if the plug or cord is damaged. Have damaged cords replaced by qualified personnel only.
- For indoor household use only, do not use outdoors.
- Do not tightly coil or bundle the power cord to prevent overheating.
- Keep flammable sprays and volatile substances (e.g., gasoline, propane, solvents, alcohol) away from the appliance.
- Never immerse the appliance, plug, or cord in water.
- Unplug before cleaning or when not in use.
- Do not spray water on the unit. Avoid rust and electrical hazards by keeping moisture away.
- Do not use sharp tools to clean the appliance.
- Do not store medications, chemicals, or experimental materials inside the unit.
- Do not place heavy or fragile items on top of the appliance.
- Use the appliance only as described in this manual.
- This appliance may be used by children aged 8+ and by persons with reduced capabilities if supervised and instructed in safe use.
- Children must not play with the appliance. Cleaning and maintenance must not be performed by children without supervision.

## **FEATURES**

This mini dehumidifier with air purifier uses quiet, lightweight Peltier (thermoelectric) technology with no compressor, making it ideal for small, poorly ventilated spaces such as wardrobes, cabinets, larders, and storage rooms. It helps prevent musty odours and fungus by reducing excess moisture.

### **Warning:**

- Do not open the unit. No user-serviceable parts are inside.
- Specifications may change/ improve without prior notice.

## **CONNECTION AND SET UP**

1. After removing the packaging, there should be 2 items:
  - a. Mini Dehumidifier with Air Purifier
  - b. AC Wire Cord

### **USING THE DEHUMIDIFIER**

1. Power On/Off

Place the unit on a flat, stable surface. Plug it into a suitable mains socket and press the ON/OFF button. The blue LED will illuminate, and the unit will begin

operating. Air will flow from the upper outlet. Press ON/OFF again to stop the unit.

2. Air Purifying Function

With the dehumidifier running, press the Air Purifying button to activate the purification feature. The blue LED and upper UV light will turn on. Press the button again to turn the function off.

3. Timer Setting

While the dehumidifier is operating, press the Time Setting button to select a run time from 1 to 24 hours. The unit will automatically stop when the selected time ends.

4. Automatic Defrost

The unit features automatic defrosting. No manual defrosting is required.

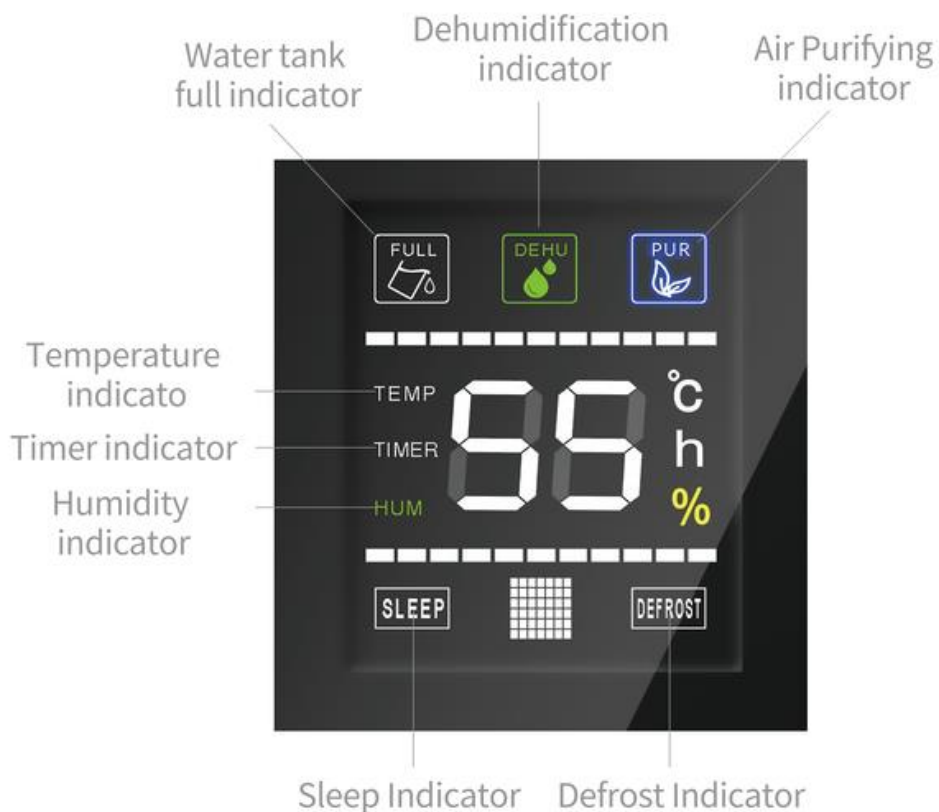

5. Display Information

The indicator window cycles through temperature, humidity, and timer (if set).

**AUTO-STOP FUNCTION**

The dehumidifier is equipped with an automatic shut-off feature. When the water tank becomes full, the unit will stop operating and the red LED on the front panel will illuminate.

**CONTROL PANEL:**

### REMOVABLE WATER TANK

When the water tank is full, with approximately 1500ml to 2000ml of water collected, the unit will automatically switch off and the red color " Water tank full" LED will turn on.

### EMPTYING THE WATER TANK

Turn off the dehumidifier before removing the water tank. Slide the tank out, empty the water into a sink or drain, then replace the tank. Press **ON/OFF** to resume operation.

### CLEANING THE WATER TANK

*Important:* The tank cover is removable for cleaning only. Turn off and unplug the unit before removing the tank. Empty the water, clean the inside of the tank, then reassemble and reinstall it.

### CLEANING THE DEHUMIDIFIER

Always turn off and unplug the unit before cleaning. Wipe the exterior with a soft cloth and use a soft brush to remove dust from the air inlet and outlet grills.

### CAUTION

1. Switch off the appliance after each use.
2. Do not use the power cord in wet or damp areas; ensure good ventilation around the unit.
3. Keep the upper outlet and rear inlet grills unobstructed at all times. Do not cover them with clothing, bags, or other items.
4. Always keep the unit upright to prevent water leakage.

## Disposal Considerations

This marking indicates that this product should not be disposed with other household waste throughout the EU. To prevent possible harm to the environment or human health from uncontrolled waste disposal, recycle it responsibly to promote the sustainable reuse of material resources.
