According to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878

Printing date: 2024.6.20		Version 1	<b>Revision: 2024.6.20</b>
Section 1.Identification of the subs	stano	ce / preparation and company	
1.1 Product identifier:			
Product name	:	Diffuser sds-GOLD lily &lotus	
Code number	:	152693	
UFI CODE	:	No need	
1.2 Relevant identified uses of the	sub	stance or mixture and uses advised against	
Relevant identified uses:	:	Consumer uses ,Aromatherapy	
Uses advised against	:	No data available	
1.3 Details of the supplier of the sa	afety	v data sheet	
Company name	:	Ogalas Unlimited	
Address	:	Unit 4 Parkway House, Ballymount  Drive, D1	2ECR9
TEL	:	+35312238312	
SDS writing person in charge	:	xiyang@daliantalent.com	
E-mail			
1.4 Emergency telephone number			
Emergency contact number	:		

## Section 2. Hazards Identification

# 2.1 Classification of the substance or mixture

### Classification according to Regulation (EC) No 1272/2008 (CLP)

Aquatic Chronic 3, H412 Harmful to aquatic life with long lasting effects.

### 2.2 Label elements

Hazard pictograms		Not applicable
Signal words	:	Not applicable
Hazard statements	:	H412Harmful to aquatic life with long lasting effects.
Precautionary statements	:	Waste disposal: P501 Dispose of contents/container in accordance with local regulations.

## Additional information:

EUH208 :Contains Linalool;Limonene;Cyclohexanol, 4-(1,1-Dimethylethyl)-, Acetate;Heptanal,

2-(Phenylmethylene)-;Octanal, 2-(Phenylmethylene)-;1,6-Octadien-3-Ol, 3,7-Dimethyl-,

3-Acetate;2h-1-Benzopyran-2-One. May produce an allergic reaction.

According to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878

Printing date: 2024.6.20	Version 1	Revision: 2024.6.20

## 2.3 Other hazards

Contains no PBT/vPvB substances  $\geq 0.1\%$  assessed in accordance with REACH Annex XIII

The mixture does not contain substance(s) included in the list established in accordance with Article

59(1) of REACH for having endocrine disrupting properties, or is not identified as having endocrine

disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU)

2017/2100 or Commission Regulation (EU) 2018/605 at a concentration equal to or greater than 0.1 %

### Section 3. Composition/Information on Ingredients

### 3.1 Substances

No data available, product is a mixture.

### 3.2 Mixtures

### substances contained in the mixture:

For the wording of the listed hazard statements refer to section 16.

Chemical name	CAS No EC No	Classification(CLP)	Concentration [%]
Dipropylene glycol monomethyl ether	34590-94-8 252-104-2	Not classified	< 100

# Section 4. First-aid Measures

4.1 Description of first aid measures	
General advice :	Move out of dangerous area. Never give anything by mouth to an unconscious person.
Skin contact :	Symptoms: dry skin, irritation in case of repeated or prolonged exposure. May cause burn in case of contact with product at high temperature. Remove contaminated clothing and footwear and dispose of safely. Wash affected area thoroughly with soap and water. Seek medical attention if skin irritation, swelling or redness develops and persists.
Eye contact :	<ul> <li>Symptoms: slight irritation (unspecific). May cause burn in case of contact with product at high temperature.</li> <li>Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do so. Continue rinsing.</li> <li>If irritation, blurred vision or swelling occurs and persists, obtain medical advice from a specialist.</li> <li>If hot product is splashed into the eye, it should be cooled immediately to dissipate heat, under cold running water.</li> <li>Immediately obtain specialist medical assessment and treatment for the casualty.</li> </ul>
Inhalation :	At ambient temperature inhalation is unlikely because of the low vapour pressure of the substance. Symptoms: None expected at ambient temperature. Inhalation of fumes or oil mists produced at high temperatures may cause irritation of the respiratory tract. In case of symptoms arising from inhalation of fumes or mists or vapours: Remove casualty to a quiet and well ventilated place if safe to do so.

### According to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878

Ingestion	:	Symptoms: few or no symptoms diarrhoea mightoccur. Do not induce vomiting. Ask for Do not give anything by mouth to	medical assistance.
4.2 Most important symptoms a	and eff	ects, both acute and delayed	
Symptoms	:	No data available	
4.3 Indication of any immediate	e medi	cal attention and special treatmen	nt needed
Information to physician	:	No data available	

Section	5.	Fire	Fighting	Measures

5.1 Extinguishing media:		
Suitable extinguishing media	:	Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.
Unsuitable ExtinguishingMedia		Do not use direct water jets on the burningproduct; they could cause splattering and spread the fire. Simultaneous use of foam and water on the same surface is to be avoided as water destroys the foam. Incomplete combustion is likely to give rise to a complex mixture of
		airborne solid and liquid particulates and gases, including carbon monoxide and unidentified organic and inorganic compounds.
5.2 Special hazards arising from t	he su	ubstance or mixture

Hazardous combustion : Will cause combustion with high temperature, fire or oxidizing agent.

### **5.3 Advice for firefighters**

In case of a large fire or in confined or poorly ventilated spaces wear full fire resistant protective clothing and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

<b>a</b>	~		-	
Section	6.	Accidental	release	measures

## 6.1 Personal precautions, protective equipment and emergency procedures

# 6.1.1 For non-emergency personnel

Protective equipment	:	Keep non-involved personnel away from the area of spillage.
Emergency procedures	:	Alert emergency personnel. Except in case of small spillages, the feasibility of any actions should always be assessed and advised, if possible, by a trained, competent person in charge of managing the

### According to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878

Printing date: 2024.6.20		Version 1	<b>Revision: 2024.6.20</b>
		emergency. It is recommended to eliminate all ignition sources if safe to do so (e.g. electricity, sparks, fires, flares). If required, notify relevant authorities according to applicable regulations.	
<b>6.1.2 For emergency responders</b> Fully protective measures are	nece	ssary.	
6.2 Environmental precautions			
Spillages onto land	:	If necessary dike the product with non-combustible materials. Let the	
Environmental precautions	:	Should not be released into the env Avoid subsoil penetration. Prevent further leakage or spillage If the product contaminates rivers a respective authorities.	if safe to do so.

## 6.3 Methods and material for containment and cleaning up

## 6.3.1 For containment: No data available

6.3.2 For cleaning up: Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders,

sawdust).

#### 6.3.3 Other information: No data available

#### 6.4 Reference to other sections

See Section 7 for information on safe handling. See Section 8 for information on personal protective equipment. See Section 13 for disposal information.

## Section 7. Handling and Storage

7.1 Precautions for safe handling					
Protective measures	:	Ensure that all relevant regulations regarding handling and storage facilities of combustible products are followed.			
Measures to prevent fire	:	It is recommended to keep away from sparks/open flames/hot surfaces. No smoking Avoid contact with the hot product.			
Measures to protect the environment	:	Avoid release to the environment.			
Advice on general occupational hygiene	:	Ensure that proper housekeeping measures are in place. Contaminated materials should not be allowed to accumulate in the workplaces and should never be kept inside the pockets.			
		Keep away from food and beverages. Do not eat, drink or smoke while using this product. Wash the hands thoroughly after handling. Change contaminated clothes at the end of working shift.			

According to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878

Printing date: 2024.6.20	Version 1		<b>Revision: 2024.6.20</b>			
7.2 Conditions for safe storage, including any incompatibilities						
Technical measures and storage conditions	(	Storage area layout, tank design operatingprocedures must comp national or local legislation.				
Packaging materials	: 1	Use materials that do not react v	with liquids.			
Requirements for storage rooms and vessels	5	Cleaning, inspection and mainte storage tanks must be done only personnel as defined by national	by properly equipped and qualified			
Storage class	: :	Store separately from oxidising	agents.			
Further information on storage conditions		Protect drains from spills and pr since this may result in blockage				
If the product is supplied in containers		Keep only in the original contain this kind of product.	ner or in a suitable container for			
	]		combustible product residues. Do rform similar operations on or near			

## 7.3 Specific end use(s):

No further relevant information available.

Section 8. I	Exposure	controls/	personal	protection
--------------	----------	-----------	----------	------------

### **8.1** Control parameters

Additional information: The most current valid lists have been used as a basis for the production of this

#### document.

• • • • • • • • • • • • • • • • • • • •		
Construction control	:	Pay attention to the air ventilation in closed working area
Special issue	:	If heat the paraffin close to the boiling point may send out stimulus/combustible gas. Although these is no significant health
		hazard, but in order to prevent the stimulation of respiratory by following good work habits and ensure the air ventilation
		in working area, maintain its minimum.

## 8.2 Exposure controls

### 8.2.1 Appropriate engineering controls:No data available

# 8.2.2 Personal protection equipment:

General protective and hygienic measures	:	Wash hands before breaks and at the end of work.
Respiratory protection	:	Normal use, no special requirements. Unnormalcases, produce smoke, equipped with respiratory protective device.
Protection of hands	:	Impervious gloves.
Gloves material	:	Not required

According to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878

Printing date: 2024.6.20	Version 1	<b>Revision: 2024.6.20</b>
--------------------------	-----------	----------------------------

Eye protection : Chemical type goggles or face shield.

### 8.2.3 Environmental exposure controls:

Control measures must be made in accordance with Community environmental protection legislation.

# Section 15. Regulatory Information

## 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

## Directive 2012/18/EU

Named dangerous substances - ANNEX I: None of the ingredients is listed.

### **15.2 Chemical Safety Assessment**

A Chemical Safety Assessment has not been carried out.

## Section 16. Other Information

#### Hazard statements (CLP):

Hazard-Statements that may be mentioned in Sections 2 and 3:

- H200 Unstable explosives.
- H201 Explosive; mass explosion hazard.
- H202 Explosive, severe projection hazard.
- H203 Explosive; fire, blast or projection hazard.

According to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878							
Printing date: 20	2024.6.20 Version 1 Rev	vision: 2024.6.20					
H204 -	Fire or projection hazard.						
H205 -	May mass explode in fire.						
H206 -	Fire, blast or projection hazard; increased risk of explosion if desensitising agen	t is reduced.					
H207 -	Fire or projection hazard; increased risk of explosion if desensitising agent is rec	luced.					
H208 -	Fire hazard; increased risk of explosion if desensitising agent is reduced.						
H220 -	Extremely flammable gas.						
H221 -	Flammable gas.						
H222 -	Extremely flammable aerosol.						
H223 –	Flammable aerosol.						
H224 –	Extremely flammable liquid and vapour.						
H225 –	Highly flammable liquid and vapour.						
H226 -	Flammable liquid and vapour.						
H228 -	Flammable solid.						
H229 –	Pressurised container: May burst if heated.						
H230 -	May react explosively even in the absence of air.						
H231 -	May react explosively even in the absence of air at elevated pressure and/or tem	perature.					
H232 -	May ignite spontaneously if exposed to air.						
H240 -	Heating may cause an explosion.						
H241 -	Heating may cause a fire or explosion.						
H242 -	Heating may cause a fire.						
H250 -	Catches fire spontaneously if exposed to air.						
H251 -	Self-heating: may catch fire.						
H252 –	Self-heating in large quantities; may catch fire.						
H260 -	In contact with water releases flammable gases which may ignite spontaneously.						
H261 -	In contact with water releases flammable gases.						
H270 -	May cause or intensify fire; oxidiser.						
H271 -	May cause fire or explosion; strong oxidiser.						
H272 –	May intensify fire; oxidiser.						
H280 -	Contains gas under pressure; may explode if heated.						
H281 -	Contains refrigerated gas; may cause cryogenic burns or injury.						
H290 -	May be corrosive to metals.						
H300 -	Fatal if swallowed.						

According to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878

Printing date: 2024.6.20	Version 1	<b>Revision: 2024.6.20</b>					
H301 - Toxic if	swallowed.						
H302 – Harmful	if swallowed.						
H304 - May be	fatal if swallowed and enters airways.						
H310 – Fatal in	contact with skin.						
H311 - Toxic in	contact with skin.						
H312 – Harmful	in contact with skin.						
H314 - Causes s	evere skin burns and eye damage.						
H315 - Causes s	kin irritation.						
H317 – May cau	se an allergic skin reaction.						
H318 - Causes s	serious eye damage.						
H319 - Causes s	serious eye irritation.						
H330 – Fatal if i	nhaled.						
H331 - Toxic if	inhaled.						
H332 – Harmful	if inhaled.						
H334 – May cau	se allergy or asthma symptoms or breathing difficulties if inhale	ed.					
H335 – May cau	se respiratory irritation.						
H336 – May cau	se drowsiness or dizziness.						
H340 – May cau	se genetic defects <state conclusively="" exposure="" if="" is="" it="" of="" p<="" route="" td=""><td>proven that no other</td></state>	proven that no other					
routes of exposure cause	e the hazard >.						
H341 - Suspecte	ed of causing genetic defects <state cond<="" exposure="" if="" is="" it="" of="" route="" td=""><td>clusively proven that</td></state>	clusively proven that					
no other routes of expos	no other routes of exposure cause the hazard>.						
H350 – May cau	se cancer <state conclusively="" exposure="" if="" is="" it="" of="" proven="" route="" td="" the<=""><td>at no other routes of</td></state>	at no other routes of					
exposure cause the haza	rd>.						
H350i – May car	use cancer by inhalation.						
H351 - Suspecte	ed of causing cancer <state conclusively<="" exposure="" if="" is="" it="" of="" route="" td=""><td>proven that no other</td></state>	proven that no other					
routes of exposure cause	e the hazard>.						
H360 – May dar	nage fertility or the unborn child <state effect="" if="" known<="" specific="" td=""><td>&gt; <state of<="" route="" td=""></state></td></state>	> <state of<="" route="" td=""></state>					
exposure if it is conclust	ively proven that no other routes of exposure cause the hazard>.						
H360F – May da	image fertility.						
H360D – May d	amage the unborn child.						
H360FD – May	damage fertility. May damage the unborn child.						

H360Fd - May damage fertility. Suspected of damaging the unborn child.

1

According to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878

Printing date: 2024.6.20Version 1Revision: 2024.6.20

H360Df - May damage the unborn child. Suspected of damaging fertility.

H361 – Suspected of damaging fertility or the unborn child <state specific effect if known> <state route of exposure if it is conclusively proven that no other routes of exposure cause the hazard>.

H361f - Suspected of damaging fertility.

H361d - Suspected of damaging the unborn child.

H361fd - Suspected of damaging fertility. Suspected of damaging the unborn child.

H362 - May cause harm to breast-fed children.

H370 – Causes damage to organs <or state all organs affected, if known> <state route of exposure if it is conclusively proven that no other routes of exposure cause the hazard>.

H371 - May cause damage to organs <or state all organs affected, if known> <state route of exposure if it is conclusively proven that no other routes of exposure cause the hazard>.

H372 – Causes damage to organs <or state all organs affected, if known> through prolonged or repeated exposure <state route of exposure if it is conclusively proven that no other routes of exposure cause the hazard>.

H373 – May cause damage to organs <or state all organs affected, if known> through prolonged or repeated exposure <state route of exposure if it is conclusively proven that no other routes of exposure cause the hazard>.

H400 - Very toxic to aquatic life.

H410 - Very toxic to aquatic life with long lasting effects.

H411 - Toxic to aquatic life with long lasting effects.

H412 - Harmful to aquatic life with long lasting effects.

H413 - May cause long lasting harmful effects to aquatic life.
