

# ALUMINIUM POP UP GAZEBO

PLU-147090

## Assembly Instructions

**IMPORTANT: RETAIN THIS INSTRUCTION FOR FUTURE REFERENCE. PLEASE READ CAREFULLY.**

### Mounting the cover on reception of the product

**Step 1**  
Partially unfold the structure

**Step 2**  
Roughly lay the roof tarpaulin

**Step 3**  
Fix the roof Velcro on the highs of the feet

**Step 4**  
Center the ridges of the tarpaulin on the masts

### Gazebo Set Up

★ This product requires at least 2 people to set up.

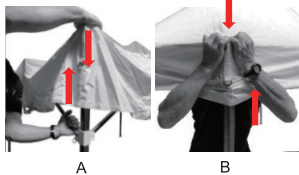

**Method A**  
Bring the shear bars together while moving away

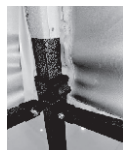

**Method B**  
Bring the shear bars together while moving away

**Step 1**  
Completely unfold the structure by using method A or B

**Step 2**  
Snap the buttons into their location (2 methods as illustrated above)

**Step 3**  
Secure the feet masts with pinball buckle  
Extend the retractable feet using the pinball buckle

**Step 4**  
Completely unfold the structure by using method A or B

**Step 5**  
In fact, each time you assemble your folding Gazebo, ballasting at each foot is essential. When the quality of the ground allows it, an anchoring and guying to the ground is also required, please refer to the replacements as picture's.

★ Be careful not to trip on the ground ropes once secured.

### Gazebo Take Down

**Step 1**  
Disassemble the roof tarpaulin and wall, drop down the feet masts

**Step 2**  
Press 4 buttons to unlock the structure

**Step 3**  
Fold up the structure by pushing it

### WARNING

1. Store the Gazebo in a cool, dry place. Make sure the roof is dry and store it independently of the structure.
2. It is essential to ensure that the weather is favorable before any assembly and use of the Gazebo.
3. This Gazebo must not be installed by wind greater than 40KM / H.
4. Do not force the structure when installing or folding the Gazebo. Make sure the structure is securely attached.
5. Once installed, do not leave the Gazebo unattended or over night. Be careful not to trip on the ground ropes once secured. Do not make fire or barbecue under the Gazebo.
6. Remember to check your structure regularly to check that the screws are properly tightened.
7. Our Gazebos are designed for strictly temporary and occasional use, and cannot in any case replace a permanent shelter (pergola, garage, etc.)
